"When will there be any definite news?" he was "There won't be any at all from me," was his reply.

Ex-Attorney-General Leslie W. Russell, of ex-Judge Hilton's counsel, fairly acknowledged that a movement for a compromise was afoot. In a statement to reporter, he said substantially :

The counsel on both sides met with a view to find some bouses satisfactory to all parties concerned, by which an end might be put to the litigation. The conference was held a few days ago. All the litigants and their counsel appeared to be in favor of a peaceful settlement of the case, but no terms were arrived at. No date was fixed for her conference, but I expect it will occur soon. I another conference, but I expect it will occur acon. I san say for Judge Hilton that he is willing to compromise. He is not anxious to do so, however, and never has been. I wish you would deny emphatically that he sought a compromise. All the overtures have come from the concentrate. Judge Hilton and his counsel thought it better see the matter on an equitable basis than let the case to settle the matter on an equitable basis than let an case drag its weary length through the courts for years. The case affords material for argumens for another decade. We thought that a settlement at this juncture would obviate large expenditures and prevent the further disintegra-

The expenses of the case are already enormo and the amount of testimony taken has been immense.

Mr. Choate's cross-examination of one witness occupied
ten days. Prescott Hall Buttler pleaded ignorance
of any proposals for extra-judicial settlement of the
controversy in which his wife, children and sister are
involved. He would not venture to give an approximate estimate of the total sum spent on the legal
proceedings; and thought, indeed, that if two lawyers
computed it on the available data, there was so little
setual basis for definite calculation that there might
be a difference of \$20,000 in the results.

SUING WOR DUTY ON CORSET-STEELS.

The trial of the suit of the United States against Elitalit & Co., for the recovery of duties on an importation for the states of the suit of the Provent of the Provent of the United States District Court. Corset-steels have as imported as tempered steel until a few months ago, has they were rated as corset-wires. The duty on expensed steel is 45 per cent, while that on corset-wire is appetle duty of 7 cents a pound. As the corset-steels or work only 3 cents a pound, the latter duty is pracisally prehibitory. The defendants imported some corset-seels, while the present of the defendants of the desired states of the control of the defendants of the desired seel, are duty boing at 1,070 less than it they had been lanced as correst-wire. The Government seeks to rewret the difference. Assistant District-Attorneys Rose and Smith appeared for the Government, and Stanley, Jacks & Smith for the importers. THE CLOSE OF THE COMMUNICATION

PLANS FOR THE NEW INSTITUTION AT UTICAPRESENTATION OF A PORTRAIT.

The Grand Lodge of Free and Accepted Masons of New-York, whose 108th annual communication opened on Tuesday, met for the last time this year yesterday afternoon. At the morning session, which began at 9 o'clock, Grand Secretary Ehlers announced contributions to the Johnstown fund from various lodges amounting in all to \$785. A resolution was then adopted providing that the board of trustees of the Hall and Asylum should consist of nine member from each judicial district of the State, to be elected by the Grand Lodge at the annual meetings. The committee recommended that the institution to be erected in Utica should have provision for the care of indigent Masons and their widows and for the support and education of needy orphans of Masons.

Regarding the plans of the building, the following recommendations were made: "The main building to consist of a three-story structure in which shall be the homes of the officers of the institution, the offices and accommodations for all general purposes of the institution, with two wings each two stories in height the other for fifty females. The other buildings for immates to consist of a series of cottages or dwellings, and accommodations for all general purposes of the institution, with two wings each two stories in height and accommodations for all general purposes of the institution, with two wings each two stories in height and accommodation of fifty male adults and the other for fifty females. The other buildings for immates to consist of a series of cottages or dwellings, and accommodation of a series of cottages or dwellings for immates to consist of a series of cottages or dwellings. The committee recommended the increased number of other reports, a seek capable of heusing thirty inmates." As to the management of the institution, the committee recommended the increased number of other reports, a seek capable of heusing thirty inmates." As to the management of the in

After the reading of a number of other reports, a life-size portrait of Past Grand Master Joseph D. Evans was presented to the Grand Lodge by his family, and was received with an appropriate speech on the part of Grand Master Lawrence.

The afternoon session was devoted principally to the installation of the officers elected on Wednesday. employed reany brilliant and high-priced lawyers, the installation of the officers elected on Wednesday. The first act of the new Grand Master, John R. The first act of the new Grand Master, John R. Vrooman, was to appoint the following commissioners of appeal: Bufus Grigges, of Brooklyn; Wright D. Pownall, of New-York, and W. H. Andrews, of Brooklyn. After the transaction of routine business, preparatory to closing, the Grand Lodge adjourned to meet one year hence. The majority of the members went to their homes last evening.

COMMISSIONERS OF ACCOUNTS TESTIFT. COMMISSIONERS OF ACCOUNTS TESTIFT:

The examination of Frank Templeman, the private detective who is charged with offering a bribe to a witness to induce him to testify that District-Attorney Pellows and Inspector Byrnes were in partnership with James E. Wilkinson, was continued yesterday before Judge Martine. Assistant District-Attorney Goff saked him about his complicity in alleged fraudulent diverce proceedings. He practically admitted that he had received \$25 from a newspaper promoter and had given him a capar which was really practically admitted that he had received \$25 from a news-paper reporter and had given him a paper which was really only a printed blank used in a legal separation between husband and wife. The reporter, who was investigating methods of obtaining divorce "without publicity," declared than Templeman assured him that the paper, if signed and sworn to before a notary public, was a full divorce in any

Templeman reiterated many of his statements made on Templeman reiterated many of his statements made of the previous day as to his interviews with the Cemmis-sioners of Accounts. Commissioners Helahan and Barker were called and they contradicted his statements, os-pecially as to apparent efforts to secure evidence against the officials. As Mr. Howe, the senier counsel for Tem-pleman, was sick, an adjournment was taken until this morning.

WEIGHING MACHINES IN THE PARKS.

People who walked through Union Square yesterday were surprised to see two of the one-cent weighing machines conspicuously placed in the centre of the broad promenades at each end of the park. The company which controls the machines has for some time been urging the Park Board to permit a number of them to be placed in the parks. They offer the city a commission of 5 per cent of the gross receipts for this privilegs. The permission was at first declined as contrary to the policy of the Board. The subject was referred to Superintendent Parsons, who reported against the machines. At the office of the Board yesterday, it was said that a resolution had been adopted giving permission for fifty machines to be placed in Control Park and the smaller parks of the city. Thursday, June 6-p. m. The governors of the New-York Exchange, as we before have remarked, seem to possess the faculty of blundering beyond the imagination of ordinary mortals. It is impossible to conceive of day by an official announcement in the Exchange was not given to all the newspaper reporters last evening. The quotation tickers were all running this morning as usual. But it was after noon-time when the acting President of the Exchange.

Number of miles...... 848.400 499.500 987,000 17an. 1 to May 31.... 1,007,372 1,125,820 1,233,751 17an. 1 to May 31.... 1,007,372 1,125,820 1,233,751 17an. 1 to May 31.... 1,310,074 1,375,440 1,441,947 time when the acting President of the Exchange

gave to the members of the Exchange the following explanation:

"That on the last day of May, for the first time, the Stock Exchange found itself in a position to terminate the contracts with the ticker companies which were unsatisfactory to the Exchange. A

EUROPEAN FINANCIAL MARKETS.

LONDON, June 4. p. m.—Atlantic and Great Western first mortgage to the mortgage trustees' certificate, 33 t, 2 th, 20 to second mortgage to the first time, the Stock Exchange found itself in a position to terminate the contracts with the ticker companies which were unsatisfactory to the Exchange. A necessary part of this termination was the suspension of the entire ticker service, but it was hoped to make the suspension as temporary as possible. This morning the service was resumed for the convenience of our members. It is temporary-to be terminated at the pleasure of the Exchange, without notice, and it is pending arrangements which shall be entirely in the interest of the Exchange, and in such arrangements the rights and privileges of all persons entitled to consideration will be promptly cared for."

There are numerous reasons why the governors should have been anxious, in the interest of the Stock Exchange, to have had this information published in the newspapers throughout the country. It seems to be impossible for the governors of the Stock Exchange to do the right thing except by a blundering process. Business principles and methods are lost arts with the forty men selected to run an important institution for the sale of securities. To-day's stock market was soarcely more active

To-day's stock market was soarcely more active than was yesterday's; yes, under the ticker service, to-day's recorded transactions are 308,152 shares of listed stocks, against 191,632 shares yesterday by the incomplete method then in vogue, and 130,000 shares of unlisted stocks, against 90,000. It was a day of large realizations of accrued profits, and therefore, after good advances in the early hours, there were later material reactions. Chicago continued to send to the local market its dispatches of railway wars and demoralization of rates generally. To-day furnished an example of the value of the Chicago news sent here during business hours, which for ten days has incked confirmation in the morning papers. Kiernan & Co.'s News Bureau sent out that the Northwestern directors had declared dividends of 1 3-4 per cent on its preferred stock and 1 1-4 per cent on the common stock. The dividends which were declared were 1 3-4 quarterly on the preferred stock and the usual 3 per cent semi-annual on the common stock.

On the first report the price of Northwestern

declared were I at quarterly on the bloth steck and the usual 3 per cent semi-annual on the common stock.

On the first report the price of Northwestern stock declined 1-2 per cent. Kiernan & Co.'s News Bureau later made the correction and sent out an explanation, stating that its dispatch (which we saw) was from its regular correspondent, whom it had summarily discharged. It would have been well to have done it a week ago, for not 10 per cent of its daily reports on the railway situation, published during business hours, have ever been confirmed.

Six months ago, when the market was a purely local affair, hourly reports of rate-cuttings had some effect, and the circulators of them had some opporturities to reap handsome rewards in the market. But now the sentiment has changed and the buyers of stock look beyond the possible fluctuations of the hour and elsgwhere than to the news prepared for Wall Street for their information. The change in news agencies for the circulation of bearish reports has profited the Chicago bears little. The final prices compare irregularly with last evening's closing prices, but despited with last evening's closing prices, but despite the small reactions in some stocks the tone of the market at the end was strong.

But the foreign exchanges were dull while firm at quotations for actual business as follows: Bankers' bills at \$4 87 1-2 and \$4 88 7-8 respectively for long and short sterling; French francs at 5.17 1-2 and \$5.15; reichmarks at 95 3-8 and 95 5-8, and guilders at 40 3-8 and 40 5-8.

The governors of the Bank of England at their weekly meeting to-day made no change in the minimum rate for discount, which remains at 2 1-2 per cent. During the week the bank lost 602,000 pounds sterling bullion, and the proportion of its reserve to its liabilities was reduced from 42.50 to 40.77 per cent, against an advance from 39.83 to 41.21 per cent, against an advance from 47.00 to 40.77 per cent, against an advance from 47.00 by the bank lost 70,000 pounds. The weekly statement of the Bank of France shows a gain of 40,338,000 francs gold and a loss of 2,725,000 francs silver. At the London Stock Exchange British consols were steady at 98 5-16 for money and 98 3-8 for account. Money between bankers was easy at 3-4 per cent. Bar silver ruled at 42 3-16d per ounce, English standard. American railways opened higher, responsive to yesterday's late home quotations, and ruled strong, with some reactions at the close. At Paris Franch 3 per cents were easy at 5-3.60.

THE TRADE IN CHICAGO.

Chicago, June 6 (Special).—The cables said to-day that the Russian wheat fields, which had been suffering so from drouth, had enjeyed rains. A general drop of 1-4 penny in all wheat futures at Liverpool followed. Hutchinson took the bull side in the morning on a considerable scale. His buying so far offset the bearish influence of the foreign news that at the close July wheat showed a decline from Wednesday night of only 1-2 cent. The news generally suited the sellers. The weather, the grain movement, the trade, all were of a sort to help "shorts" rather than "longs. Harvesting was going on in southern Kansas, and there were splended sheaves of wheat on the floor, cut in Texas a watersting was going on in southern Kansas, and there were splended sheaves of wheat on the floor, cut in Texas a watersting was going on in southern Callornia. In spite of all this June wheat here was strong, closing lained, are making this month's deliveries of at the bottom figures, 75 3-4 for the day, and considered at 71-2, touched 78-12 and closed at 78 June 10 and 10
